

Standard Operating Procedure (SOP)

Standard Operating Procedure (SOP) - Customer Implementation & Onboarding

1. Purpose

To standardize the customer implementation and onboarding process, improve communication between teams, reduce implementation delays, and enhance customer satisfaction.

2. Scope

Applicable to Sales, Business Operations, Implementation, Technical, Customer Success teams and all customer implementation projects.

3. Roles & Responsibilities

Role	Responsibility
Sales Team	Complete customer handover and provide implementation details.
Business Operations	Review request and assign Implementation Manager.
Implementation Manager	Own customer implementation and communication.
Technical Team	Configure system, integrations and testing.
Customer Success	Receive project handover after Go-Live.
Customer	Provide information, attend training, complete UAT.

4. Standard Procedure

Step	Activity	Owner	SLA
1	Receive Sales handover	Business Operations	4 Hours
2	Validate documents	Business Operations	1 Business Day
3	Assign Implementation Manager	Operations Manager	Same Day
4	Schedule Kick-off Meeting	Implementation Manager	2 Business Days
5	Technical Readiness Assessment	Technical Team	2 Business Days
6	Configuration & Data Migration	Technical Team	Project Plan
7	Training	Implementation Manager	Before UAT
8	User Acceptance Testing	Customer & Technical Team	3 Business Days
9	Go-Live	Implementation Team	Planned Date
10	Handover to Customer Success	Implementation Manager	1 Business Day

5. KPIs

KPI	Target
Average Implementation Time	<=30 Days
On-Time Go-Live	>=95%
SLA Compliance	>=95%
CSAT	>=90%

6. Escalation Matrix

Issue	Escalate To
Missing customer information	Sales Manager
Technical issue	Technical Lead
SLA breach	Head of Operations
